

**GOALS FOR THE SCHOOL DISTRICT**

**District Slogan**

"Quality Education Today for a Better Tomorrow"

**Major Strategic Goals**

- The district will implement programs to enhance student self esteem, and serve "At-Risk" students.
- The district will develop, implement and articulate a thinking, meaning-centered curriculum that is accessible to all students.
- The district will implement A comprehensive, active parent education/involvement program.
- The district will restructure school site programs and processes to reflect current research and successful models.
- The district will institutionalize district-wide strategic planning and implement shared decision-making processes.
- The district will develop and implement a master plan to keep current with rapidly changing technologies in curriculum, management, and communication.
- The district will implement programs that enhance staff self-esteem and practices that recognize the contributions of its employees.
- The district will develop and implement a program for students and staff that promotes responsibility for the environment.
- The district will develop and implement a district facilities and maintenance master plan which meets current and future needs.
- The district will responsibly allocate resources and aggressively seek and secure additional resources to meet its strategic goals.
- The district will develop and implement a comprehensive staff development program, inclusive of classified, certificated and management personnel.
- The district will form partnerships with community health and social service agencies to provide information and access to services for students within the district's jurisdiction.
