

## Thematic Development Analysis Graphic Organizer

**Directions:** Select two well-established themes in a work and analyze how these themes are developed throughout the work using specific examples from the text. Complete this graphic organizer and answer the following questions: How do these two themes interact and build upon one another to produce a complex account of the work?

Review: A theme is a central idea, concept or message that the reader takes away from a written work; a theme is not directly stated but determined by analyzing some or all of the following: title, setting, symbols, conflict, details, the characters' interactions and the character development. Many works contain multiple themes.

Theme #1	Theme #1
Where and how this theme is first introduced in the play? Cite specific details.	Where and how this theme is first introduced in the play? Cite specific details.
Where and how is the theme addressed further along in the work? Cite specific details.	Where and how is the theme addressed further along in the work? Cite specific details.
How does this theme come full circle at the end of the play? Cite specific details.	How does this theme come full circle at the end of the play? Cite specific details.
