The education of students with disabilities is a community and District issue, not the sole responsibility of special education experts and staff. Based on feedback from our community partners, El Rancho Unified is undergoing an examination to improve instruction and student outcomes for students placed in Adult Transition Program. Participation in these stakeholder and workgroup meetings is not mandatory and there will be additional opportunities for input and feedback through surveys and presentations. However, we do ask that if you choose to participate, that you attempt to attend all three workshop meetings.

These workshop meetings will be structured with the intent to provide the District with future programming goals, benchmarking, and recommendations for improved student outcomes.

For additional questions and or concerns, please do not hesitate to contact the Special Education Department at (562) 801-4810
