Reynaldo Reyes, Principal

2010-11 School Accountability Report Card
Published During the 2011-12 School Year

Principal's Message

We envision our school as a place where students have room to grow and mature, both emotionally and intellectually. Working together, we will create a school climate that encourages learning, provides alternatives for earning high school credits, and prepares our students with a foundation on which to build the rest of their lives.

Using effective instructional strategies, our students will learn problem-solving techniques and become proficient in using technology to assess information, to strengthen basic skills, to develop a variety of communication techniques, and to acquire the competencies that will lead to post-secondary education and entry-level job skills. This will be accomplished by monitoring a small student body, small class size, a caring staff, flexible scheduling, career counseling, individualized instruction, and a strong emphasis on productivity in class.

We will do our best to provide a warm and caring atmosphere where students feel that they matter. Stop by and visit us anytime. We would be happy to show you around and let you see for yourself.

Mission Statement: We believe all students have potential, are valued individuals, and are unique in their personalities. We respect their individuality, encourage creative thinking, and strive to provide the safest, least-disruptive learning environment. Our commitment is to help our students complete the requirements for a high school diploma, acquire basic job-related skills, develop an appreciation of the importance of lifelong learning, and develop effective social skills.

We are committed to providing an enriched curriculum with high expectations for all students, which emphasizes the skills, concepts, and processes necessary for the technological and cultural challenges of the 21st century.

Ruben Salazar was awarded a six (6) year accreditation through 2015.

Goals for the upcoming school year include upgrades on all classroom computers, purchase of document cameras, and Eno interactive boards for engaged instruction.

Professional Development

The El Rancho Unified School District provides professional development programs that provide a wide range of professional growth and support opportunities to serve the needs of teachers/staff at all learning stages. These programs include:

- Beginning Teachers Support and Assessment (BTSA) program as approved by the State of California which provides experienced mentor support for all new teachers earning their California Clear Credential.
- Peer Assistance Review (PAR) program for veteran teachers which provides seminars and individual coaching for teachers refreshing their skills and learning new strategies.
- Certificated and Staff Training
- Site Administrator Training

We dedicate three full days and approximately 18 half days towards professional development at our school sites per year. The topics addressed at our trainings are based on teachers' need assessment surveys, student assessment data analysis, district and schoolwide action plans. Our intern teachers are supported by University Supervisors. Professional development at individual school sites are determined by the instructional focus. English Learner and Special Population trainings are offered on site as needed. In addition, teachers also attend off-site workshops or conferences.

"We will do our best to provide a warm and caring atmosphere where students feel that they matter."

Superintendent

In accordance with State and federal requirements, the School Accountability Report Card (SARC) is put forth annually for all public schools as a tool for parents and interested parties to stay informed of the school's progress, test scores and achievements.

Enrollment and Demographics

The total enrollment at the school was 188 students for the 2010-11 school year.*

* Enrollment data was gathered from DataQuest and is accurate as of May 2011.

Parental Involvement

We encourage parents to be knowledgeable about, and participate in, their student's educational program. Ruben Salazar values parent and community involvement. Beginning on the first day students enroll, a parent/teacher conference is required in English or Spanish. Together, we coordinate a plan of academic success. Parents are welcome to visit the school at any time, as well as at Open House and parent conferences.

Parent and community representatives are active on our School Site Council (SSC). They meet with the principal and certificated employees to determine program needs and expenditures for the school improvement plan. The English Language Advisory Committee (ELAC) meets to assure the needs of the English Learner (EL) students and their families are being addressed. This committee partners with the SSC to direct the programs at Salazar and serves as an advocate for EL students and families.

The Optimist Club is also active at Ruben Salazar, adopting students and staff, and meeting every month to assist with program needs and expenditures. Ruben Salazar High School also encourages community awareness and student involvement. Salazar partnered with Presbyterian Intercommunity Hospital in Whittier to sponsor a blood drive. Whittier/Rio Hondo Aids Project, students, staff, and community members all donated blood and plasma.

With the support of the Pico Rivera Rotary Club, Salazar has enacted an Interact club that meets on Tuesday's during lunch. The focus is for developing leadership skills and advancing international understanding and goodwill.

For more information on how to become involved at the school, please contact Reynaldo Reyes, Principal, at (562) 801-5021.

School Facility Items Inspected

The table shows the results of the school’s most recent inspection using the Facility Inspection Tool (FIT) or equivalent school form. The following is a list of items inspected.

- **Systems:** Gas Systems and Pipes, Sewer, Mechanical Systems (heating, ventilation, and air conditioning)
- **Restrooms/Fountains:** Restrooms, Sinks/Drinking Fountains (interior and exterior)
- **Interior:** Interior Surfaces (floors, ceilings, walls, and window casings)
- **Safety:** Fire Safety Equipment, Emergency Systems, Hazardous Materials (interior and exterior)
- **Cleanliness:** Pest/Vermin Control, Overall Cleanliness (school grounds, buildings, rooms, and common areas)
- **Structural:** Structural Condition, Roofs
- **Electrical:** Electrical Systems (interior and exterior)
- **External:** Windows/Doors/Gates/Fences, Playgrounds/School Grounds

School Facility Good Repair Status

This inspection determines the school facility's good repair status using ratings of good condition, fair condition, or poor condition. The overall summary of facility conditions uses ratings of exemplary, good, fair, or poor condition. At the time of this school facility inspection, no deficiencies were found.

School Facilities

Ruben Salazar High School’s current campus was established in 1955 and consists of 18 classrooms, one main office, and a school cafeteria. The campus has volleyball and basketball courts. There are softball, football, and soccer fields available as well.

The condition and cleanliness of Ruben Salazar High School’s campus is good. The classrooms are in good condition, and one custodian keeps the restrooms and office area clean and presentable. Custodial hours are from 8:45 a.m. to 5:45 p.m. Monday through Friday.

School safety is maintained using the gate near the campus entrance. All guests and visitors to the campus must check in with the office staff first, and be allowed onto the campus by a staff member, allowing them access through the gate. To maintain a safe atmosphere, two school security officers have been hired to maintain safety.

Ruben Salazar has been relocated to 9115 Balfour St. (the old Meller Elementary site). Current project under construction is the Library.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. For the 2011-12 school year, the District budgeted \$570,920 for the Deferred Maintenance Program. This represents .075% of the District's general fund budget.

School Safety

Ruben Salazar High School’s School Safety Plan (SSP) was most recently reviewed, updated, and discussed with school faculty in September 2011. Parents can access the SSP in each of the classrooms, or in the office.

The purpose of the Safety Plan, first and foremost, is student and staff safety. The Safety Plan addresses where students are to go in the event of an emergency, how students may be released to an appropriate adult, and which staff members will lead first aid and search and rescue teams. In the event of an emergency, the campus will be locked down until appropriate authorities have deemed it safe for students to be released to an appropriate adult.

“The El Rancho Unified School District provides professional development programs that provide a wide range of professional growth and support opportunities to serve the needs of teachers/staff at all learning stages.”

Textbooks and Instructional Materials

The El Rancho Unified School District follows the State adoption guidelines and adoption cycles for textbooks in reading, math, social studies, science, and English language development (ELD) used in the elementary schools. Recommendation for adoption of textbooks is made through a District committee of teachers, administrators, and parents. Input from all school staff members and parents are vital to making the recommendation. The District Committee discusses the school's recommendations and votes for a textbook to be adopted. The recommendation is then taken to the school board, who makes the final decision on the adoption of all textbooks.

Textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education. Every student is assigned one textbook and workbook in the core subjects for use in class and to take home.

Public Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (i.e., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available at a workstation, and the ability to print documents.

Quality of Textbooks

The following table outlines the criteria required for choosing textbooks and instructional materials.

STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are evaluated and compared to state standards using the following five performance levels: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, science, and history-social science.

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program aims to identify strengths and weaknesses to improve student learning. STAR consists of several key tests that are designed for the student's age and individual needs. These tests include: the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA).

The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test. The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an individualized education program (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For more information on the STAR program including tests, participation, groups, and scores by grade level, please visit <http://star.cde.ca.gov/>.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of the schools within California. API is measured on a scale from 200 to 1,000. This score reflects the school, district or a student group's performance level, based on the results of statewide testing. The state has set an API score of 800 as the statewide target.

The annual API reporting cycle consists of the Base and Growth API. The Base API data is released one year after testing occurs (i.e. The 2010 Base is calculated from results of statewide testing in spring 2010, but is not released until May 2011). Growth API, released following the Base API, calculates test results taken from the most recent school year (i.e. The Growth API is calculated from results of statewide testing in spring 2010 and released in August 2010). Therefore, for the 2010-2011 API reporting cycle, the 2010 Base indicator and 2011 Growth indicator are used.

To learn more about API, please visit the API information guide at www.cde.ca.gov/ta/ac/ap/documents/infoguide11.pdf and the API overview guide at www.cde.ca.gov/ta/ac/ay/documents/overview11.pdf.

API Testing

Assessment data is reported only for *numerically significant* groups. To be considered numerically significant for the API, the group must have either: (1) at least 50 students with valid STAR Program scores who make up at least 15% of the total valid STAR Program scores, or (2) at least 100 students with valid STAR Program scores.

API Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide API rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools API rank" reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which information is available.

API Growth by Student Group

This table displays, by student group, first, the 2011 Growth API at the school, district, and state level followed by the actual API change in points added or lost for the past three years.

Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. California public schools and districts are required to meet or exceed criteria in these four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district met each of the AYP criteria and made overall AYP for 2010-11. For more information, visit www.cde.ca.gov/ta/ac/ay/.

Federal Intervention Program

Districts and schools receiving Title I funding that fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate) can enter into Program Improvement (PI). Each additional year that the district or schools do not meet AYP results in advancement to the next level of intervention. This table displays the 2011-12 Program Improvement status for the school and district. For more information, please visit www.cde.ca.gov/ta/ac/ay/.

Admission Requirements for California's Public Universities

University of California: Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work.

For general admissions requirements, please visit the UC Admissions Information Web page at www.universityofcalifornia.edu/admissions. (Outside source)

California State University: Eligibility for admission to the California State University (CSU) is determined by three factors:

- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the CSU Web page at www.calstate.edu/admission/admission.shtml. (Outside source)

California High School Exit Exam Results

The California High School Exit Exam (CAHSEE) is primarily used as a graduation requirement in California. Students are first tested in tenth grade and have multiple chances to retake the test if the student does not pass the first time. The grade 10 results of this exam are also used to determine AYP for high schools as required by the federal NCLB law. The CAHSEE has two sections: English-language arts and Math. For the purposes of calculating AYP, three performance levels were set: Advanced, Proficient, and Not Proficient.

No Child Left Behind Compliant Teachers

NCLB requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. The table displays data regarding NCLB compliant teachers from the 2010-11 school year. For more information on teacher qualifications related to NCLB, please visit www.cde.ca.gov/nclb/sr/tq.
