2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

South Ranchito Dual Language Academy is located in Pico Rivera, California and has been a landmark in the Pico Rivera community for many years. Demographic information for South Ranchito Dual Language Academy consists of 396 students enrolled, of which 63% are from a low socioeconomic status. The school has a population of 49.3% English learners. Of the 396 students enrolled at South Ranchito, 98% are Hispanic or Latino.

Our classes consist of general education classrooms, Dual Language immersion classrooms, and our Transitional Kindergarten class. We also have three Autism Focus classes servicing students in K-5. South Ranchito Dual Language Academy offers a strong curriculum focused on the California Common Core State Standards. Reading, English Language Development, Writing, Mathematics, Science, Social Studies, and physical education provide the foundation for student success. We implement Project-Based Learning to enrich 21st Century Skills.

School Mission Statement

The mission of South Ranchito Dual Language Academy, in partnership with the community, is to provide a quality education that encourages creative and critical thinking in a supportive environment. We are committed to providing an enriched curriculum with high expectations for all students which emphasizes the skills, concepts, and processes necessary for the technological and cultural challenges of the 21st century. Our commitment is to prepare students to be productive citizens and lifelong learners in a culturally diverse and technologically advanced society.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

Total Teaching Positions	

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2021-22 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The El Rancho Unified School District follows the State adoption guidelines and adoption cycles for textbooks in reading, math, social studies, science, and English language development (ELD) used in the elementary schools. Recommendation for adoption of textbooks is made through a District committee of teachers, administrators, and parents. Input from all school staff members and parents are vital to making the recommendation. The District Committee discusses the school's recommendations and votes for a textbook to be adopted. The recommendation is then taken to the school board, who makes the final decision on the adoption of all textbooks.

Textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education. Every student is assigned one textbook and workbook in the core subjects for use in class and to take home.

School Facility Conditions and Planned Improvements

South Ranchito Dual Language Academy is a closed campus. Visitors must report to the main office to sign-in, show I.D., and obtain a visitor's pass. Additionally, visitors must sign-out in our office log. The most recent Facility Inspection Tool (FIT) data indicates the school is clean and well kept. Our school's overall rating on the FIT report is "Exemplary." An overall rating of good signifies the school is maintained in good repair with a number of non-critical deficiencies noted.

Parent volunteers assist in the daily morning drop-off zone area to improve safety and the traffic flow on the main street (Passons Blvd.). On November 1, 2017, our Innovation Lab opened for students to create, design, innovate and learn. The Innovation Lab is a maker space and STEM lab all in one where coding, robotics, and Project-Based Learning takes place.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

South Ranchito Dual Language Academy offers the following ways in which parents can be involved in the school.

School Site Council (SSC) and ELAC (English Learners Advisory Committee), our parent advisory groups, provide recommendations and suggestions to the principal in regards to the school's instructional program. Members of these groups which include teachers, parents, and classified employees, work with the principal to develop, review and evaluate school improvement programs and school budgets. The members of these committees are elected by their peers.

Parents are encouraged to be partners in the education of their child. Our Digital Learning Coach (DLC) facilitates parent workshops. Parents have the opportunity to participate in a series of workshops focusing on anti-bullying and PBIS. The Digital Learning Coach also offers tiered computer classes, so that parents have access and can utilize the school and district websites as a resource for information as well as assist with their child's education and support the development of 21st Century skills.

When the school is in session for face to face instruction, parents also have the opportunity to volunteer at the school site both in and out of the classroom.

Parents also have the ability to ask questions, provide input and feedback directly to the principal via the Kickboard application.

For more information on how to become involved at the school, please contact the principal, Ms. Padron at (562) 801-7660 or via email, ipadron@erusd.org.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

Due to the ongoing pandemic, the School Safety Plan has not been reviewed by our school's Safety Committee (which is comprised of a group of teachers). The pandemic has forced us to implement specific safeguards for the potential situations that may arise when students return to campus. Therefore, several of those safeguards are being developed and evaluated on a consistent basis to ensure that we continue to follow the guidelines provided by the LA County Department of Health. Additionally, since this situation is an ever-evolving situation, we have had to continuously modify and revise our plans. The intent is to solidify a safety plan that responds to all of the previous scenarios that were included, along with this current situation prior to students returning at some point in the spring. When it is deemed safe to do so by the LA County Department of health, the plan will be reviewed by our Safety Committee and this portion will be updated.

Professional Development

The district provides professional learning opportunities to meet the needs of administrators, teachers, and support staff at all levels of the organization: ERUSD's Induction/ Peer Support Program; Peer Assistance Review (PAR) for veteran teachers; District and site administrators; Teachers and support staff; and Digital Learning Coaches.

Professional development is determined by in-depth data analysis and aligned to the instructional focus areas. English learners and special population training are offered on-site and at the district level as needed. In addition, teachers and support staff also have the opportunity to participate in virtual workshops or conferences.

Traditionally, the analysis of data led to the identification of professional learning priorities. Whole group instruction, small group differentiated instruction, and designated English language development supported strengthening language arts instruction at the elementary level. Professional learning in mathematics focused on the Standards for Mathematics Practice, in conjunction with problem-solving and modeling and data analysis at the middle school level. At the high school, professional learning was prioritized for the Expository Reading and Writing Course which develops students' academic literacy in rhetorical and analytical reading, writing, and thinking. All schools participated in professional learning opportunities centered on data literacy. Professional development has traditionally been provided during modified day schedules, pupil-free days, release days, and conferences/workshops outside the district. Professional learning is supported through in-class coaching, teacher-principal meetings, observations, and demonstration lessons.

This table displays the number of school days dedicated to staff development and continuous improvement.
