

RETIREMENT

All regular classified employees who wish to retire from the district and who qualify for retirement under the Public Employees Retirement System regulations shall comply with all applicable PERS regulations in applying for retirement. Retirement shall be considered as resignation from the district.

Disability Retirement

The district shall not separate an employee for disability if he/she is otherwise eligible for disability retirement under PERS. If it is believed that an employee is disabled, a request for disability retirement will be made to PERS unless the employee waives the right to retire for disability and elects to withdraw contributions or to permit contributions to remain in the fund with the rights to service retirement.
